EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Matthew Scheele on March 24, 2009.

The application has been amended as follows:

In claim 27, line 3, after the word "fluid" and the semicolon, the sentence - - positioning a return electrode in the presence of electrically conductive fluid; the return electrode spaced proximally from the active electrode; - -. In line 4 of claim 27, after the word "and", the letter "a" has been deleted and replaced with the word - - the - -. In line 6 of claim 27, the word "electrodes" has been deleted and replaced by the word - - electrode - -.

In claim 28, line 2, the word "electrodes" has been deleted and replaced by the word - - electrode - -.

In claim 31, line 2, after the word "and", the word "a" has been deleted and replaced by the word - - the - -.

In claim 32, line 1, after the word "claim", the number "32" has been deleted and replaced by the number - - 27 - -. Additionally, in line 1, the word "electrodes" has been deleted and replaced by the word - - electrode - -.

The following is an examiner's statement of reasons for allowance:

After extended searches the examiner concludes that the prior of record does not disclose or suggest a method that discloses, *inter alia*, the steps of:

- positioning an active electrode adjacent to or in contact with tissue in the presence of electrically conductive fluid;
- positioning a return electrode in the presence of electrically conductive fluid; the return electrode spaced proximally from the active electrode;
- applying a sufficient high frequency voltage difference between the active electrode and the return electrode to vaporize a portion of the electrically conductive fluid such that the vaporized fluid and the active electrode have a temperature below 100 C; and
- effecting ablation of at least a portion of the tissue in contact with the vaporized fluid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
